

Virtual Nerd has developed a patent-pending platform for delivering better, personalized instruction while lowering costs for students, teachers, schools and districts around the country. Our Dynamic Whiteboard™ is also helping our partners affordably teach complex material to diverse audiences.

The Virtual Nerd Difference: Smart Video

We take video-based supplemental instruction to the next level. Students personalize their learning path by clicking to drill down for more detailed explanation.

Our Innovative and Influential Customers and Partners

VN Content Offerings

Math

Over 1,400 tutorials covering Grade 6–8 Math, Pre-Algebra, Algebra 1 and Algebra 2.

Science

Hundreds of tutorials covering Introductory Physics.

About our tutorials...

Our tutorials are created by a team of experienced teachers and tutors and go through a multi-step quality control process

Our content library is modular and can be easily mapped to any given taxonomy

We have already mapped our tutorials to Common Core, The Quantile Framework®, SAT & ACT content areas, top textbooks, and custom partner taxonomies

Most of our tutorials are 4–8 minutes long

User Feedback

Love this site!!! I use it to reinforce what I've just taught and the kids love it. It's great for review or to introduce a new topic. Can't do without it now.

— Jeffrey H., Teacher

You're a lifesaver! THANK YOU. I have a test on this tomorrow, and I was VERY confused!

— A. Rackleman, Student

WOW! I'm amazed how clearly she got the point across... So concise and clear, it almost seems 'simple'.

— B. Fields, Student
